The North Central Alabama Regional Council of Governments (NARCOG) was originally created in 1966 as the North Central Alabama Regional Planning and Development Commission. NARCOG was re-established with its new name and subsequently certified by Governor George Wallace on November 1, 1971. NARCOG operates under the authority of Section 3 of Act No. 1126 of the 1969 Regular Session of the Legislature of Alabama. This Act, as amended, can be found in Sections 11-85-50 through 11-85-73 of the 1975 Code of Alabama. It provides for the creation and operation of regional planning and development commissions, which have among their many purposes, to “carry on continuous, comprehensive planning for the Region, assessing needs, resources, and development opportunities and formulating goals, objectives, policies, and standards to guide physical, economic, and human resource development.” NARCOG offers a multitude of services to the people and communities in our Region, as illustrated in the adjacent organizational structure diagram.

The 2019 Annual Performance Report is intended to provide a snapshot of accomplishments achieved over the past year in the implementation of the mission, vision, and goals outlined in the Region's CEDS and found on the following page.
During FY2019, several changes occurred to the committee representatives from a couple of the organizations. These changes were due to retirements. The new members are indicated in "red" in the list of committee members located in the table to the right.

The CEDS Strategy Committee met on July 30th at the NARCOG Board Room in Decatur. The purpose of the meeting was for NARCOG staff to provide an update on various initiatives and preliminary performance measures and receive input from the committee for the 2019 Annual Performance Report.

NARCOG operates a Small Business Fund (SBF) Program intended to assist small and medium size business and industries throughout the region with gap financing. The NARCOG SBF Program has been very successful over the years and is partially funded by EDA. Program information was made available at: NARCOG, local Chambers of Commerce, industrial development associations, Decatur-Morgan County Entrepreneurial Center, local banks, all member governments, and online at www.narcog.org. For the period October 1, 2018 through September 30, 2019, NARCOG SBF has done the following:

- Loan Review Committee Meetings – 3
  - October 26th
  - December 3rd
  - February 29th
- Bankers Breakfast- August 28th, Morgan County
- Adopted EDA Revolving Loan Fund Administrative Plan - June 2019
In terms of patterns and trends, employment continues to be the primary gauge in analyzing or measuring the economy of the NARCOG EDD and its service area. The following table reflects the number of new and expanding industries along with the corresponding amounts of capital investment and jobs created within the NARCOG EDD service area of Cullman, Lawrence, and Morgan Counties from October 1, 2018 to August 2019. Also, these numbers, provided by our local economic development agencies, represent what has been “announced” during this time period, and it may be several years in some cases before the actual private investment and, most importantly, the jobs are actually created.

**SELECTED ECONOMIC HIGHLIGHTS**

**Cullman County**
- The city of Cullman received a $14 million grant from the U.S. Department of Transportation’s Better Utilizing Investment to Leverage Development (BUILD) Grant program to fund the expansion of Alabama Highway 157 from two lanes to four between US. Highway 31 and Alabama Highway 69. This stretch of Hwy 157 provides a direct route to Cullman Regional, which serves more than 175,000 people in a six county area. It is anticipated that construction on this project will began early FY2020 and be completed by September 2025. In the words of Cullman State Senator, Garlan Gudger, “This much needed improvement will address our current safety and transportation concerns, along with providing a boost in economic development and allowing opportunities for expansion of industry. Source: Cullman Tribune, December 2018

- The city of Cullman has plans to construct a multi-purpose sports complex, at a cost of $15 million to $20 million, to attract state and national sports tourism while meeting a wide range of local demands. The complex will hold 7,500 people, perhaps more, depending on the events. State and national sporting events held at the complex are expected to benefit local hotels and businesses while bringing many new people to the city.

**Lawrence County**
- Nucor Tubular Products is expanding a newly acquired site in the Mallard Fox West Industrial Park. The expansion will provide 35 new jobs that are anticipated to pay $50,000 to $60,000 per year. The $27.2 million expansion includes new production, processing and packaging equipment, finishing, and workforce growth to support new operations. Source: Moulton Advertiser; April 2019

- Lockheed Martin has announced the construction of a “hypersonic manufacturing facility” that will create 72 jobs over three years in Courtland, with the possibility of more jobs in the future. This new facility will double the number of employees Lockheed has at the Courtland site, which opened in 1993. Marillyn Hewson, president and CEO of Lockheed Martin, said that workers will need science, technology, engineering and mathematics training, and that Lockheed has plans to invest in STEM and apprenticeship programs. The initial 72 workers will be assembling a prototype missile system, and projected wages will be “very competitive and attractive.” Source: Decatur Daily; September 2019

**Morgan County**
- In June of 2019, The brand new, $32.4 million Cook Museum of Natural Science facility opened on Lee Street Northeast and Fourth Avenue in Decatur. The 62,000 square foot museum in Downtown Decatur will be the successor to the former 5000 square foot “bug museum” founded by the late John Cook Senior in 1980. The museum has a projected annual operating budget of $5-6 million and is packed with interactive exhibits and facts about nature. The museum has 29 full-time staff members and a full staff, including part-time employees, of 117. The museum has 11 exhibit galleries, each with numerous interactive displays. The museum will receive an estimated 214,000 visitors in the first year, not including school groups. Source: Times Daily; June 2019

- Daikin America Inc. has announced plans to invest up to $195 million in its Decatur production facility to add new capabilities and an estimated 50 new jobs. The expansion project is said to include polymer production capability, associated monomer production, utility systems, infrastructure enhancements and research and development capabilities for the Decatur site. The announcement was made at a community celebration commemorating Daikin’s 25th anniversary in Decatur. Made in Alabama; September 2019

**Opportunity Zones** - A new community investment tool established by Congress in the Tax Cuts and Jobs Act of 2017 to encourage long-term investments in low-income urban and rural communities nationwide. Opportunity Zones provide a tax incentive for investors to re-invest their unrealized capital gains into dedicated Opportunity Funds. There are 158 Census tracts that are designated Opportunity Zones distributed across all 67 counties in Alabama. [https://eig.org/opportunityzones](https://eig.org/opportunityzones)

**New Markets Tax Credit (NMTC) Program** incentivizes business and real estate investment in low-income communities of the United States via a federal tax credit. The program is administered by the US Treasury Department’s Community Development Financial Institutions (CDFI) Fund and allocated by local Community Development Entities (CDEs) across the United States. The New Markets Tax Credit Program was established as part of the Community Renewal Tax Relief Act of 2000.
