

Name of Project: Municipal Sports Complex

Location: South Vinemont, Cullman County

NARCOG Services provided: CDBG Grant preparation and administration

CDBG Project Number: SM-CE-PF-11-004

Project Narrative: In 2011, the Town of South Vinemont located in Cullman County, Alabama, was awarded a \$250,000 Community Development Block Grant (CDBG) Community Enhancement (CE) grant for a "*Municipal Sports Complex*". The project included the construction of a concession stand along with ball-field lighting for two of the complexes five fields. The South Vinemont Town Council and residents are very pleased with the new concession stand and ball-field lighting. As a result of this project's successful completion, all 749 residents of South Vinemont (2010 Census) now enjoy the benefit of not only having a much needed sports complex to serve the community but also a complex that attracts tournaments. The sports complex has been very successful in attracting tournaments that bring in additional revenue to the Town. The Town of South Vinemont is very grateful to the Alabama Department of Economic and Community Affairs (ADECA) and the United States Housing and Urban Development Agency's (HUD) CDBG Program for making this important community project a reality.
